

LARP1 Polyclonal Antibody

Cat #: ABP59093

Size: 30μl /100μl /200μl

Product Information

	Product Name: LARP1 Polyclonal Antibody		
	Applications: WB, ELISA		Isotype: Rabbit IgG
	Reactivity: Human, Mouse		
REF	Catalog Number: ABP59093	LOT	Lot Number: Refer to product label
	Formulation: Liquid		Concentration: 1 mg/ml
	Storage: Store at -20°C. Avoid repeated freeze / thaw cycles.		Note: Contain sodium azide.

Background: LARP1 (La Ribonucleoprotein Domain Family Member 1) is a Protein Coding gene. Among its related pathways are Translational Control. RNA-binding protein that promotes translation of specific classes of mRNAs downstream of the mTORC1 complex Associates with the mRNA 5cap in an MTOR-dependent manner and associates with mRNAs containing a 5 terminal oligopyrimidine (5TOP) motif, which is present in mRNAs encoding for ribosomal proteins and several components of the translation machinery. Associates with actively translating ribosomes via interaction with PABPC1/PABP and stimulates translation of mRNAs containing a 5TOP, thereby regulating cell growth and proliferation Positively regulates the replication of dengue virus

Application Notes: Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:500-1:2000), ELISA (1:5000-1:20000).

Storage Buffer: PBS, pH 7.4, containing 0.02% Sodium Azide as preservative and 50% Glycerol.

Storage Instructions: Stable for one year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing.

Note: The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
