

## RHOJ Polyclonal Antibody

Cat #: ABP60170

Size: 30µl /100µl /200µl

### Product Information

	<b>Product Name:</b> RHOJ Polyclonal Antibody		
	<b>Applications:</b> WB, ELISA		<b>Isotype:</b> Rabbit IgG
	<b>Reactivity:</b> Human, Mouse		
<b>REF</b>	<b>Catalog Number:</b> ABP60170	<b>LOT</b>	<b>Lot Number:</b> Refer to product label
	<b>Formulation:</b> Liquid		<b>Concentration:</b> 1 mg/ml
	<b>Storage:</b> Store at -20°C. Avoid repeated freeze / thaw cycles.		<b>Note:</b> Contain sodium azide.

**Background:** RHOJ (Ras Homolog Family Member J) is a Protein Coding gene. Diseases associated with RHOJ include Rhinosporidiosis and Parasitic Ichthyosporia Infectious Disease. Among its related pathways are ERK Signaling and Sertoli-Sertoli Cell Junction Dynamics. RHOJ encodes one of the many small GTP-binding proteins in the Rho family shown to be associated with focal adhesions in endothelial cells. The encoded protein is activated by vascular endothelial growth factor and may regulate angiogenesis.

**Application Notes:** Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:500-1:2000), ELISA (1:5000-1:20000).

**Storage Buffer:** PBS, pH 7.4, containing 0.02% Sodium Azide as preservative and 50% Glycerol.

**Storage Instructions:** Stable for one year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing.

**Note:** The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
