

RSPH1 Polyclonal Antibody

Cat #: ABP60270

Size: 30µl /100µl /200µl

Product Information

	Product Name: RSPH1 Polyclonal Antibody		
	Applications: WB, ELISA		Isotype: Rabbit IgG
	Reactivity: Human, Mouse		
REF	Catalog Number: ABP60270	LOT	Lot Number: Refer to product label
	Formulation: Liquid		Concentration: 1 mg/ml
	Storage: Store at -20°C. Avoid repeated freeze / thaw cycles.		Note: Contain sodium azide.

Background: RSPH1 (Radial Spoke Head 1 Homolog) is a Protein Coding gene. Diseases associated with RSPH1 include Ciliary Dyskinesia, Primary, 24 and Primary Ciliary Dyskinesia 24: Rsph1-Related Primary Ciliary Dyskinesia. RSPH1 encodes a male meiotic metaphase chromosome-associated acidic protein. RSPH1 is expressed in tissues with motile cilia or flagella, including the trachea, lungs, airway brushings, and testes. Alternatively spliced transcript variants encoding different isoforms have been found for RSPH1.

Application Notes: Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:500-1:2000), ELISA (1:5000-1:20000).

Storage Buffer: PBS, pH 7.4, containing 0.02% Sodium Azide as preservative and 50% Glycerol.

Storage Instructions: Stable for one year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing.

Note: The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
