

## TF2LX Polyclonal Antibody

Cat #: ABP60660

Size: 30µl /100µl /200µl

### Product Information

	<b>Product Name:</b> TF2LX Polyclonal Antibody		
	<b>Applications:</b> WB, ELISA		<b>Isotype:</b> Rabbit IgG
	<b>Reactivity:</b> Human		
<b>REF</b>	<b>Catalog Number:</b> ABP60660	<b>LOT</b>	<b>Lot Number:</b> Refer to product label
	<b>Formulation:</b> Liquid		<b>Concentration:</b> 1 mg/ml
	<b>Storage:</b> Store at -20°C. Avoid repeated freeze / thaw cycles.		<b>Note:</b> Contain sodium azide.

**Background:** TGIF2LX (TGFB Induced Factor Homeobox 2 Like, X-Linked) is a Protein Coding gene. An important paralog of TGIF2LX is TGIF2LY. TGIF2LX encodes a member of the TALE/TGIF homeobox family of transcription factors. Testis-specific expression suggests that TGIF2LX may play a role in spermatogenesis. A homolog of TGIF2LX lies within the male specific region of chromosome Y, in a block of sequence that is thought to be the result of a large X-to-Y transposition.

**Application Notes:** Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:500-1:2000), ELISA (1:5000-1:20000).

**Storage Buffer:** PBS, pH 7.4, containing 0.02% Sodium Azide as preservative and 50% Glycerol.

**Storage Instructions:** Stable for one year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing.

**Note:** The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.
