

5(6)-TAMRA, succinimidyl ester, mixed isomers

Cat #: BMD00030

Lot #: Refer to product label

Tetramethylrhodamine has been a widely used fluorophore for preparing bioconjugates.

Product Information

Product name 5(6)-TAMRA, succinimidyl ester, mixed isomers

Specification

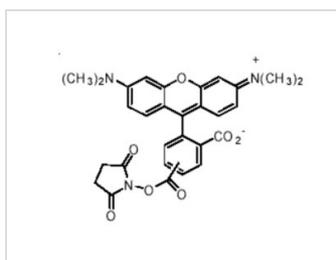

Fig. 5(6)-TAMRA, succinimidyl ester, mixed isomers structure formula

Product Properties

Storage instructions Store at -20°C. The product can be stored for up to 12 months. Protect from light.

Shipping Gel pack with blue ice.

Precautions The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.

Additional Information

Background 5(6)-TAMRA SE (full name: 5-(and-6)-Carboxytetramethylrhodamine succinimidyl ester (mixed isomers)) is the amine reactive form of TAMRA, one of the most commonly used red fluorescent dyes. The succinimidyl ester reacts readily with primary or secondary amines under mild conditions.

Alternative names 5-(and-6)-Carboxytetramethylrhodamine succinimidyl ester
