

5(6)-TAMRA, cadaverine

Cat #:BMD00031

Lot #: Refer to product label

Tetramethylrhodamine has been a widely used fluorophore for preparing bioconjugates.

Product Information

Product name 5(6)-TAMRA, cadaverine

Specification

Fig. 5(6)-TAMRA, cadaverine structure formula

Product Properties

Storage instructions	Store at -20°C. The product can be stored for up to 12 months. Protect from light.
Shipping	Gel pack with blue ice.
Precautions	The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.

Additional Information

Background	5(6)-TAMRA cadaverine is a useful reagent for modifying carboxy groups via EDC-mediated reactions. It is a good glutamate transglutaminase substrate and a useful building block for small fluorescent molecules.
