

## Rhodamine 110

Cat #:BMD00049

Lot #: Refer to product label

Rhodamine 110 is the precursor for a variety of R110-based enzyme substrates.

### Product Information

**Product name** Rhodamine 110

### Specification

Fig. Rhodamine 110 structure formula

### Product Properties

<b>Storage instructions</b>	Store at room temperature. The product can be stored for up to 12 months. Protect from light.
<b>Shipping</b>	Gel pack with blue ice.
<b>Precautions</b>	The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.

### Additional Information

<b>Background</b>	Rhodamine 110 (R110) is the precursor for a variety of R110-based enzyme substrates. It is also used as a calibration standard for R110-based enzyme substrates. Compared to AMC and AFC enzyme substrates, fluorogenic R110 substrates are generally more sensitive, giving longer absorption and fluorescence wavelength than AMC and AFC substrates.
<b>Alternative names</b>	R110
