

5(6)-CFDA

Cat #:BMD00065

Lot #: Refer to product label

5(6)-CFDA can be loaded into cells via incubation.

Product Information

Product name 5(6)-CFDA

Specification

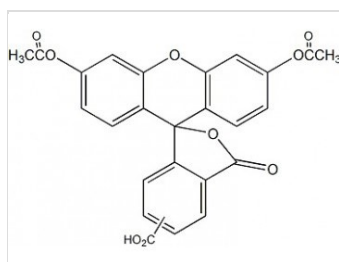

Fig. 5(6)-CFDA structure formula

Product Properties

| | |
|-----------------------------|--|
| Storage instructions | Store at -20°C. The product can be stored for up to 12 months. Protect from light. |
| Shipping | Gel pack with blue ice. |
| Precautions | The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product. |

Additional Information

| | |
|--------------------------|--|
| Background | 5(6)-CFDA (full name: 5-(and-6)-Carboxyfluorescein diacetate) is membrane-permeant and thus can be loaded into cells via incubation. Once inside cells, CFDA is hydrolyzed by intracellular esterases to carboxyfluorescein. |
| Alternative names | 5(6)-Carboxyfluorescein diacetate |
