

DiOC5(3)

Cat #:BMD00080

Lot #: Refer to product label

DiOC5(3) is a probe for measuring membrane potential and localization of endoplasmic reticulum.

Product Information

Product name DiOC5(3)

Specification

Fig. DiOC5(3) structure formula

Product Properties

Storage instructions	Store at -20°C. The product can be stored for up to 12 months. Protect from light.
Shipping	Gel pack with blue ice.
Precautions	The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Suggested applications of our products are not recommendations to use our products in violation of any patent or as a license. We cannot be responsible for patent infringements or other violations that may occur with the use of this product.

Additional Information

Background	3,3'-Dipentylloxacarbocyanine is a probe for measuring membrane potential and localization of endoplasmic reticulum. It is a potential-sensitive cell-permeant dye. Used in flow cytometric antibiotic susceptibility assay for <i>S. aureus</i> .
Alternative names	3,3'-Dipentylloxacarbocyanine
